SPECIFICATIONS
KLIP-BILT II® Assembly

KLIP-BILT II® shelving is industrial duty adjustable steel shelving constructed as a structurally independent unit consisting of posts, shelves, back and side "X" bracing, and/or back and side panels, and required hardware. A variety of accessories can be added to the basic unit to suit particular storage requirements. Standard nominal unit sizes are: 36", 42", or 48" wide by 12', 18", or 24" deep in heights of 3'-4", 6'-1", 7'-1", or 8'-1". Other sizes are available.

ASSEMBLY INSTRUCTIONS UNDER DEVELOPMENT.
