

QUICK-BILT® Bins

Model 8101

Quick-Bilt® offers the ultimate in fast-change flexibility and money-saving durability. Start with the basic Model 8101 unit, including top shelf, base shelf, two slotted end panels and a back panel. You add shelves, dividers and drawers to suit your own particular needs. Quick-Bilt is also easy to rearrange.

Model 8121

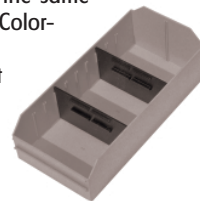

Note: All single row units must be ordered with backs. When units are back to back, 1/2 of the units must be ordered with backs and the other 1/2 may be ordered without backs.

PLASTI-BILT® DRAWERS

Organize the entire shelf, front-to-back, while making it easy to rearrange as inventory needs change. Molded from high-impact polystyrene. Crosswise dividers to store different parts in the same drawer. Color-coding makes it easy to locate parts.

KLIP-BILT® II Bins

(KLIP-BILT® II UNITS ARE 36"W X 7'1"H)

6 Shelf Open Unit

Rugged, industrial-duty bulky bins with more space in the corners. Strongbox front posts keep front corners open. Units are easy to assemble and rearrange using Lickety-Clips to locate shelves.

8 Shelf Closed Unit

FIFO RACK™

Keep age-sensitive products, like batteries, from getting stuck on the back of a shelf and wasting your money. Uses gravity to keep products moving to the front along roller tracks. Uses heavy-duty Speedi-Bilt components making it easy to assemble and highly affordable. Improves worker safety as well.

FIFO Rack

SPEEDI-BILT® Storage Units

Light-Duty Shelving

Bulk Storage Rack

They're simple and wider. Two basic components... beams and posts snap together without special tools. And you can save money using particle board and similar shelf surfaces. Best of all, wider shelves offer more uninterrupted storage space for bulky items. Ideal for medium-duty loads.
